Is a collection of sofas, armchairs and complements totally modular that allow to multiply compositions and finishes.

Please, provide a sketch with the order to avoid misunderstandings, and taking into account that right left is always facing the element.

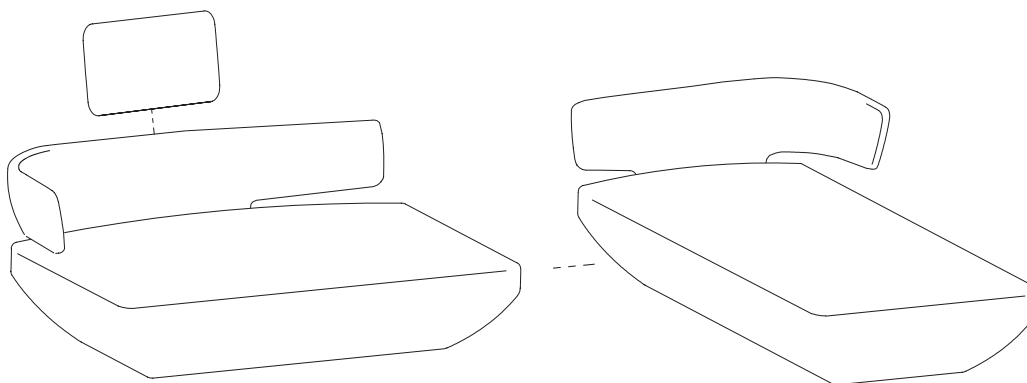

The seat deepness is 90 cm without cushions so if you need a shorter seat, you should order the cushions for the back.

The direction of the fabric in the chaise lounge and similar sizes options will be the opposite to the side unit to avoid visible sewing.

In case to upholster with 2 different fabrics, the higher category will be taken for the total price.

The tolerance of the different elements can be +/- 3 cm.

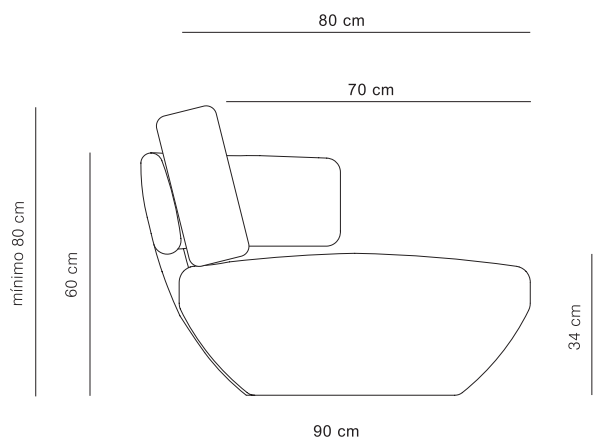

Indicate in the order the cushion/back that you would like.

Backs in MDF curved wood and wood bases foamed in expanded indeformable polyurethane with different densities and polyester fiber.

Cushions in washed duck and goose feather with anti-acarus treatment. Anti-feather scape cotton cover.

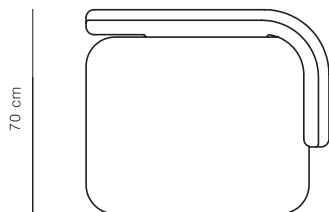

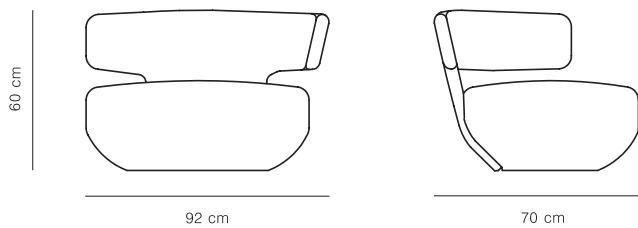

Removable cover.
